Hi [Redacted]

As you are aware Juneau County Health Department has conducted its only sampling of private wells and is interested in obtaining the sample results that EPA collected on May 3rd. Barb Theis is asking if you would send the results to her by e-mail at [btheis@co.juneau.wi.us](mailto:btheis@co.juneau.wi.us). If you have any questions, you can contact me at 312-886-1463 or by e-mail at [Burdett.cheryl@epa.gov](mailto:Burdett.cheryl@epa.gov) or Barb Theis at 608-847-9373.

Sincerely,

Cheryl Burdett  
R5 EPA/WECA  
CAFO Program Manager

Hi [Redacted] Ex. 6 Personal Privacy (PP)

I spoke with my Supervisor and he informed me that the sampling results are Enforcement Confidential and should not have been sent to you. Please delete the sampling information and submit a FOIA request via the EPA website.

Please send me an e-mail that you have received this e-mail and have deleted the information.

Sorry for any inconvenience.

Sincerely,

Cheryl Burdett

**Subject:** Re: Nitrate-Nitrite Results

Cheryl,

The public health nurse here for Juneau, Wood and Adams County is going to have a big meeting on 2-12-2017. They need data to show there is a problem here. Evidently Wysocki for central sands does not have an active permit or approved nutrient plan in place. They are trying to stop them.

Can I share the report that you sent me without the names etc with her?

Wysocki has now bought another CAFO north of us and the number homes that will be affected I hear is terrible if we can't prove what he is doing here in Armenia.

Please let me know if this should be done. Everyone is guessing is aware that you guys have been here.

Please advise.

Could you wait until tomorrow until I have a chance to talk with my Supervisor about the results. I think it can be shared as long as I don't have any personal addresses or names. I still would like to confirm this with my Supervisor.

Sincerely,

Cheryl Burdett

That's a nightmare about the lake water. Could it be traced to the cow or was it human?

Can I share that result or better now to. Please let me know.

You guys are angels.

I appreciate what you do. People gave verbal permission and I received e-mail permission this am from Dave Johnson's neighbor. I hope that is good enough. Most people want help and we are hoping that this insanity here stops

Please let me know about the lake water. That is an awful health risk. Atleast I know I won't be going in it so you saved me.

Ok. The rivers and streams tested have the following numbers:

S 16 S. Petenwell Lake

E.coli = 1

S17 N. Petenwell Lake

E.coli = 15

S18 Spud Creek

E.coli = 20

S19 Cranberry Creek

E.coli = 74

Here are the numbers that reference the waterways tested ant the E.coli results.

Sincerely,

Cheryl Burdett

You guys are awesome. What about lake and the rivers?

Did you get hit at those places?

I'll text you additional results as I get them.
